

## **NWTWC Targeted Support Funding Sharing Impact and Learning Events**

**A whole range of innovative and successful projects have been happening in a neighbourhood near you!**

Come and share in the learning and hear about the tremendous activities which have been possible across the region over the past few months as a result of the Targeted Support Funding from DCLG.

Empowerment activities, engagement events and examples of effective Big Society projects will be showcased at a series of 3 "free to attend" sub regional half day events with speakers and participants from the successful projects sharing their experiences and learning from amongst a vast array of projects delivered in conjunction with voluntary and community organisations. Learn about the impact these activities have had on local communities and the difference the projects have made.

These projects have been carried out in neighbourhoods with the aim of embedding good practice on empowerment, engagement and building the Big Society and include:

- Neighbourhood days
- Neighbourhood charters
- Community asset transfer
- Community anchors
- Community / neighbourhood champions
- Participatory budgeting
- Neighbourhood 'Think tanks'
- Neighbourhood community appraisers
- Neighbourhood gardens/orchards / food growing
- Neighbourhood Social Enterprise support

Also at the events there will be an opportunity to consider how you can become part of an effective sub regional network to support and build effective relationships and share practice and understanding with others involved in engaging communities.
